industries, including integration into next-generation communication networks. This session will explore how emerging applications leveraging quantum technologies intersect with existing and potential future broadband and telecommunications infrastructure. Such applications include quantum networking and secure communications as well as future connected quantum sensors and distributed quantum computing. We will discuss ongoing research, industry partnerships, and the role of Illinois as a leader in the global quantum ecosystem. Attendees will gain insights into the future of quantum-secure networks and how businesses can prepare for the coming advancements in quantum-enabled telecommunications.

1:30 p.m. ***Harnessing the Power of Artificial Intelligence***

Dan Burwitz, CISSP, CEH, Cybersecurity Team Lead, Vantage Point

In the realm of cybersecurity, artificial intelligence (AI) has emerged as a game-changer, revolutionizing both defensive and offensive strategies. This presentation explores the intersection of AI and cybersecurity, examining its dual nature of fortifying defenses and fueling the capabilities of malicious actors. Vantage Point Solutions discusses the potential of AI to become the ultimate ally or adversary in the ongoing battle for security.

2:15 p.m. ***Elevating Your Brand Through Film Production***

Casey French, Marketing & PR Director, CASSCOMM

In a fast-paced work environment with competition growing, film production may be key to keeping your brand noticed. This presentation will focus on the key elements of branding and filming. Why is your brand important, and does it tell a story?
